America's National Game Albert G. Spalding 2020-09-14 This book is in great demand by baseball enthusiasts. Having been connected with every department of the game from player to magnate, Mr. Spalding has contributed a very important work to the game's history. As the invincible pitcher of the Boston Club, previous to the formation of the National League, his book of so many pages is an interesting record of events dating from the beginning of the great American pastime. It is not exactly a history of the game, but deals largely with incidents during the author's career, who was a player in the late 1860s and early 1870s, and helped organize the National League in 1876. One chapter, devoted to sundry topics, gives an account of the sale of the immortal "King Kelly," the original "\$10,000 beauty," by Chicago to the Boston Club in the late 1880s. Other Chapters are devoted to the literature of the game, quoting several instances of the baseball paragrapher's art and also specimens of the distinct poetry of the pastime, of which "Casey at the Bat" is probably the most widely known. The Cincinnati Red Stockings Mr. Spalding gives credit as being the pioneer professional organization. It was not, however, until 1871 that professional baseball playing, as recognized today, was instituted. Mr. Spalding shows how cricket could not do for Americans. He says it is suitable for the British temperament, but not for the Yankee hustling spirit. He also tells how he worked into the game through a one-handed catch when a small boy. To lovers of baseball, whose name is legion, and whose number increases yearly, this book comprises in itself a whole library of useful information.

Galactic Pot-Healer Philip K. Dick 2010-05-14 Joe Fernwright works as a pot-healer, a repairer of ceramics, in a dull future where there isn't much call for his skills. He's broke and bored when the offer from the Glimmung comes along. It might just be the answer to both his financial and spiritual problems, even if it does mean working on a strange project on Plowman's Planet with other assorted odd creatures. The only thing is that the Glimmung may just be divine and ask for more than Joe's commitment to the job . . .

Travel in the Byzantine World Ruth Macrides 2017-07-05 The contributions to this volume have been selected from the papers delivered at the 34th Spring Symposium of Byzantine Studies at Birmingham, in April 2000. Travellers to and in the Byzantine world have long been a subject of interest but travel and communications in the medieval period have more recently attracted scholarly attention. This book is the first to bring together these two lines of enquiry. Four aspects of travel in the Byzantine world, from the sixth to the fifteenth century, are examined here: technicalities of travel on land and sea, purposes of travel, foreign visitors' perceptions of Constantinople, and the representation of the travel experience in images and in written accounts. Sources used to illuminate these four aspects include descriptions of journeys, pilot books, bilingual word lists, shipwrecks, monastic documents, but as the opening paper shows the range of such sources can be far wider than generally supposed. The contributors highlight road and travel conditions for horses and humans, types of ships and speed of sea journeys, the nature of trade in the Mediterranean, the continuity of pilgrimage to the Holy Land, attitudes toward travel. Patterns of communication in the Mediterranean are revealed through distribution of ceramic finds, letter collections, and the spread of the plague. Together, these papers make a notable contribution to our understanding both of the evidence for travel, and of the realities and perceptions of communications in the Byzantine world. Travel in the Byzantine World is volume 10 in the series published by Ashgate/Variorum on behalf of the Society for the Promotion of Byzantine Studies.

The Science of Superheroes Lois H. Gresh 2003-09-29 The truth about superpowers . . . science fact or science fiction? "An entertaining and informative guide to comic book wonders bound to come." —Julius Schwartz, Editor Emeritus, DC Comics Superman, Batman, The X-Men, Flash, Spider Man . . . they protect us from evildoers, defend truth and justice, and, occasionally, save our planet from certain doom. Yet, how much do we understand about their powers? In this engaging yet serious work, Lois Gresh and Robert Weinberg attempt to answer that question once and for all. From X-ray vision to psychokinesis, invisibility to lightspeed locomotion, they take a hard, scientific look at the powers possessed by all of our most revered superheroes, and a few of the lesser ones, in an attempt to sort fact from fantasy. In the process, they unearth some shocking truths that will unsettle, alarm, and even terrify all but the most fiendish of supervillains. Lois Gresh (Rochester, NY) has written eight novels and nonfiction books as well as dozens of short stories and has been nominated for national fiction awards six times. Robert

Weinberg (Oak Forest, IL) is a multiple award-winning author of novels, nonfiction books, short stories and comics.

A Shot of Faith (to the Head) Mitch Stokes 2012-04-16 Secular, skeptical, disillusioned. These are the traits that mark our age—encouraged by outspoken atheists who insist that faith is naive and belief is dangerous. But what if the atheists are the irrational ones? Can their beliefs withstand the rigorous examination that they demand from others? In *A Shot of Faith to the Head*, Mitch Stokes, Senior Fellow of Philosophy at New Saint Andrews College, dismantles the claims of skeptics and atheists, while constructing a simple yet solid case for Christian belief. This profound yet accessible book proves the rationality, consistency, and reliability of the Christian approach to science and life. If you have ever doubted that your beliefs can stand up to scrutiny—if you've ever doubted your beliefs—this book dissolves the questions. For atheists, it is a wake-up call. For Christians, it's *A Shot of Faith to the Head*. Endorsements: "A Shot of Faith to the Head is much more than a defense of Christianity; it takes the offensive against the secularist thinking that enamors so many in the West. With the thoroughness of a scholar and the confidence of experience, Mitch Stokes demonstrates the intellectually dubious nature of the so-called "New Atheism" and provides Christians with a much needed handbook for the questions they will surely face once they are outside of the safe confines of their Christian communities. I highly recommend it." —Larry Taunton, founder of the Fixed Point Foundation and author of *The Grace Effect* "A fine book: lively, clear, accessible, but also deep, and deeply competent." —Alvin Plantinga, Emeritus Professor of Philosophy at the University of Notre Dame, author of *Where the Conflict Really Lies: Science, Religion, and Naturalism*, Oxford University Press "The Bible identifies Jesus as the Word and as the Light, available therefore to the mind as well as the heart. Of all religions, Christianity most invites one to think as well as to believe, and in this troubled time that invitation is still more urgent to take up. Here is a book by a skilled thinker, showing how better to think about faith. It is a worthy task, ably achieved." —Larry P. Ann, PhD, president, Hillsdale College "This book is what snarky atheists have coming to them for their dismissive claims and unfounded arrogance. Written not to convince atheists but to help Christians defend themselves and the Christian faith, *A Shot of Faith to the Head* takes the best tools of top-notch apologetics and philosophy and puts them in the hands of every believer. Even better, it's easy and fun to read, winsome, witty, filled with sharp thinking, and well-researched. As a professor and pastor, I'll be assigning this book in my apologetics courses and would recommend it to every Christian. It displays strategic answers to questions and objections every Christian has encountered." —Justin Holcomb, pastor, Mars Hill Church; executive director of the Resurgence; adjunct professor of theology, Reformed Theological Seminary

Underwater Physiology C. J. Lambertsen 2013-10-22 *Underwater Physiology* is a collection of papers that deals with the physiologically limiting effects of undersea, high pressure exposure ranging from fundamental biological reactions, through integration of physiological stresses, and to limits actually experienced in deep diving. Papers discuss oxygen, the mechanisms of toxicity, and the effects of oxygen on cells and systems such as its pathological and physiological influences in the neurosensory ocular tissue. Other papers discuss the physical effects of pressure and gases on cellular function, protein structure, and the possibility of alleviating symptoms through the administration of drugs. Tests in mice show that various gases exhibit qualitative and semi-quantitative differences in the characteristics of sickness, reactions to hypoxia, and the time before the onset of symptoms. A computer, programmed for nonlinear gas transfer and other variables, running in real time can compute directly from the breathing mixture and provide a real time solution to decompression sickness under various conditions. A combined therapeutic approach, recompression and dextran (an effective lipemic clearing agent) should be capable of treating decompression sickness in humans. Other papers investigate the influence of inert gases and pressure on the central nervous system, as well as, situations in undersea and manned chamber operations. This collection can prove valuable for physiologists, biochemists, cellular biologists, and researchers involved in deep sea diving.

Brutified Robert Benefiel 2020-11-27 *Brutified* is a collection of poetry written by the author Robert Benefiel. The poems contained within it are from a larger cache of poems written in 2019. The pieces themselves range from narrative to abstract, bibliographical to fictionalized, allowing for a fuller range of expression and voice. What each piece carries is the idea of surviving the brutality of the world, others, and even one's self, in hopes of gaining insight and retaining one's compassion. Whether the piece is addressing the idea of finding one's own art at a junk store, or stumbling across a love note written before, but after, a lover has left them, or even watching a young midget be chased through the mall, the author never ceases to try and present the emotion and meaning at the core of each piece in a blatant yet subtle way.

33 Snowfish Adam Rapp 2011-04-12 "Adam Rapp's brilliant and haunting story will break your heart. But then his words will mend it. . . . Absolutely unforgettable." – Michael Cart On the run in a stolen car with a kidnapped baby in tow, Custis, Curl, and Boobie are three young people with deeply troubled pasts and bleak futures. As they struggle to find a new life for themselves, it becomes painfully clear that

none of them will ever be able to leave the past behind. Yet for one, redemption is waiting in the unlikeliest of places. With the raw language of the street and lyrical, stream-of-consciousness prose, Adam Rapp hurtles the reader into a world of lost children, a world that is not for the faint of heart. Gripping, disturbing, and starkly illuminating, his hypnotic narration captures the voices of two damaged souls - a third speaks only through drawings - to tell a story of alienation, deprivation, and ultimately, the saving power of compassion.

Ulysses and Us Declan Kiberd 2010-06-03 In *Ulysses and Us*, Declan Kiberd argues that James Joyce's *Ulysses* offers a humane vision of a more tolerant and decent life under the dreadful pressures of the modern world. As much a guide to contemporary life as it is a virtuoso work of literary criticism, *Ulysses and Us* offers revolutionary insights to the scholar and the first-time reader alike. Leopold Bloom, the half-Jewish Irishman who is the hero of James Joyce's *Ulysses*, teaches the young Stephen Dedalus (modelled on Joyce himself) how he can grow and mature as an artist and an adult human being. Bloom has learned to live with contradictions, with anxiety and sexual jealousy, and with the rudeness and racism of the people he encounters in the city streets, and in his apparently banal way sees deeper than any of them. He embodies an intensely ordinary kind of wisdom, Kiberd argues, and in this way offers us a model for living well, in the tradition of the literature upon which Joyce drew in writing *Ulysses*, such as Homer, Dante and the Bible. 'Declan Kiberd's brilliantly informed and highly entertaining advocacy liberates Joyce's greatest book from the dungeon of unreadable masterpieces.' Joseph O'Connor

Undressing Cinema Stella Bruzzi 2012-10-12 From Audrey Hepburn in Givenchy, to sharp-suited gangsters in Tarantino movies, clothing is central to film. In *Undressing Cinema*, Stella Bruzzi explores how far from being mere accessories, clothes are key elements in the construction of cinematic identities, and she proposes new and dynamic links between cinema, fashion and costume history, gender, queer theory and psychoanalysis. Bruzzi uses case studies drawn from contemporary popular cinema to reassess established ideas about costume and fashion in cinema, and to challenge conventional interpretations of how masculinity and femininity are constructed through clothing. Her wide-ranging study encompasses: * haute couture in film and the rise of the movie fashion designer, from Givenchy to Gaultier * the eroticism of period costume in films such as *The Piano* and *The Age of Innocence* * clothing the modern femme fatale in *Single White Female*, *Disclosure* and *The Last Seduction* * generic male chic in *Goodfellas*, *Reservoir Dogs*, and *Leon* * pride, costume and masculinity in 'Blaxploitation' films, *Boyz n' The Hood* and *New Jack City* * drag and gender confusion in cinema, from the unerotic cross-dressing of *Mrs Doubtfire* to the eroticised ambiguity of *Orlando*.
