

# Hitler And Stalin Parallel Lives Alan Bullock

As recognized, adventure as skillfully as experience approximately lesson, amusement, as with ease as covenant can be gotten by just checking out a books Hitler And Stalin Parallel Lives Alan Bullock in addition to it is not directly done, you could assume even more going on for this life, a propos the world.

We present you this proper as capably as simple habit to get those all. We manage to pay for Hitler And Stalin Parallel Lives Alan Bullock and numerous book collections from fictions to scientific research in any way. in the midst of them is this Hitler And Stalin Parallel Lives Alan Bullock that can be your partner.

Has History a Future? Alan Bullock 1977-01-01

Backing Hitler Robert Gellately 2002-03-14 The Nazis never won a majority in free elections, but soon after Hitler took power most people turned away from democracy and backed the Nazi regime. Hitler won growing support even as he established the secret police (Gestapo) and concentration camps. What has been in dispute for over fifty years is what the Germans knew about these camps, and in what ways were they involved in the persecution of 'race enemies', slave workers, and social outsiders. To answer these questions, and to explore the public sides of Nazi persecution, Robert Gellately has consulted an array of primary documents. He argues that the Nazis did not cloak their radical approaches to 'law and order' in utter secrecy, but played them up in the press and loudly proclaimed the superiority of their system over all others. They publicized their views by drawing on popular images, cherished German ideals, and long held phobias, and were able to win over converts to their cause. The author traces the story from 1933, and shows how war and especially the prospect of defeat radicalized Nazism. As the country spiralled toward defeat, Germans for the most part held on stubbornly. For anyone who contemplated surrender or resistance, terror became the order of the day.

Mao: The Unknown Story Jon Halliday 2012-09-30 The most authoritative life of Mao ever written, by the bestselling author of *Wild Swans*, Jung Chang and her husband, historian Jon Halliday. Based on a decade of research, and on interviews with many of Mao's close circle in China who have never talked before, and with virtually everyone outside China who had significant dealings with him, this is the most authoritative life of Mao ever written. It is full of startling revelations, exploding the myth of the Long March, and showing a completely unknown Mao: he was not driven by idealism or ideology; his intimate and intricate relationship with Stalin went back to the 1920s, ultimately bringing him to power; he welcomed Japanese occupation of much of China; and he schemed, poisoned and blackmailed to get his way. After Mao conquered China in 1949, his secret goal was to dominate the world. In chasing this dream he caused the deaths of 38 million people in the greatest famine in history. In all, well over 70 million Chinese perished under Mao's rule, in peacetime. Combining meticulous history with the story-telling style of *Wild Swans*, this biography makes immediate Mao's roller-coaster life, as he intrigued and fought every step of the way to force through his unpopular decisions. Mao's character and the enormity of his behaviour towards his wives, mistresses and children are unveiled for the first time. This is an entirely fresh look at Mao in both content and approach. It will astonish historians and the general reader alike. 'This a bombshell of a book', Chris Patten, *The Times* 'The first great political biography of the twenty-first century' *Spectator*

Fontana Dictionary for Modern Thinkers Alan Bullock 1998-12-01

Better Than Good Zig Ziglar 2007-09-16 The Ultimate Challenge: To Be Better Than Good He has spent his life helping other people to realize their dreams and experience maximum success. Now comes Zig Ziglar's high-impact work that calls you to the passion, purpose, and practical tools that can ignite the peak performance you long for. In the real-life stories Zig shares, drawn from nearly fifty years as a world-class motivational author, speaker, and businessman, you'll discover how others have risen above fear and failure to embrace the quality of life they were meant to have. Their experiences will teach you how to accomplish more than you ever dreamed possible, even as you learn: the three pillars of the Better Than Good life new discoveries that will motivate you for life how to develop a strategic plan that accomplishes your goals what often keeps good people from reaching the ultimate level of productivity and happiness ways to form better-than-good habits that can take you to new horizons of success. . . . and much, much more! Let the master of motivatin help you clear your mind of failure-prone thinking, as together with Zig Ziglar, you redefine success and take hold of your dreams. Let him inspire you to be Better Than Good!

Hitler and Churchill Andrew Roberts 2010-12-16 'His book is timely and a triumph. Roberts manages to convey all the reader needs to know about two men to whom battalions of biographies have been devoted' *EVENING STANDARD* Adolf Hitler and Winston Churchill were two totally opposite leaders - both in what they stood for and in the way in which they seemed to lead. Award-winning historian Andrew Roberts examines their different styles of leadership and draws parallels with rulers from other eras. He also looks at the way Hitler and Churchill estimated each other as leaders, and how it affected the outcome of the war. In a world that is as dependent on leadership as any earlier age, *HITLER AND CHURCHILL* asks searching questions about our need to be led. In doing so, Andrew Roberts forces us to re-examine the way that we look at those who take decisions for us.

Ernest Bevin Alan Bullock 2002 "Alan Bullock's monumental biography, originally published in three volumes between 1960 and 1983 and described by Clement Attlee as 'a massive work about a massive man', is here issued in a one-volume abridgement for a new generation of readers."--BOOK JACKET.

Hitler and Stalin Alan Bullock 1991 A comparative study of the lives and careers of Hitler and Stalin. Alternate chapters on each serve both to draw contrasts and highlight parallels. The author gives his reasons for believing that the key to an understanding of the character of the two is the same.

Life in the Third Reich Richard Bessel 1985 Essays discuss political violence, village life, public opinion of Hitler, Nazi policy against the Jews, social outcasts, and the experience of youngsters growing up in Nazi Germany

Stalinism and Nazism Kershaw Ian 1997-04-28 The internationally distinguished contributors to this landmark volume represent a variety of approaches to the Nazi and Stalinist regimes. These far-reaching essays provide the raw materials towards a comparative analysis and offer the means to deepen and extend research in the field. The first section highlights similarities and differences in the leadership cults at the heart of the dictatorships. The second section moves to the 'war machines' engaged in the titanic clash of the regimes between 1941 and 1945. A final section surveys the shifting interpretations of successor societies as they have faced up to the legacy of the past. Combined, the essays presented here offer unique perspectives on the most violent and inhumane epoch in modern European history.

The Anatomy of Fascism Robert O. Paxton 2011-12-01 Fascism was the major political invention of the twentieth century and the source of much of its pain. How can we try to comprehend its allure and its horror? Is it a philosophy, a movement, an aesthetic experience? What makes states and nations become fascist? Acclaimed historian Robert O. Paxton shows that in order to understand fascism we must look at it in action - at what it did, as much as what it said it was about. He explores its falsehoods and common threads; the social and political base that allowed it to prosper; its leaders and internal struggles; how it manifested itself differently in each country - France, Britain, the low countries, Eastern Europe, even Latin America as well as Italy and Germany; how fascists viewed the Holocaust; and, finally, whether fascism is still possible in today's world. Offering a bold new interpretation of the fascist phenomenon, this groundbreaking book will overturn our understanding of twentieth-century history.

Hitler's Niece Ron Hansen 2009-10-27 "A textured picture of Hitler's histrionic personality and his insane mission for glory, presaging the genocide to come in the cold-blooded obliteration of one young woman." — Publishers Weekly Hitler's Niece tells the story of the intense and disturbing relationship between Adolf Hitler and the daughter of his only half-sister, Angela, a drama that evolves against the backdrop of Hitler's rise to prominence and power from particularly inauspicious beginnings. The story follows Geli from her birth in Linz, Austria, through the years in Berchtesgaden and Munich, to her tragic death in 1932 in Hitler's apartment in Munich. Through the eyes of a favorite niece who has been all but lost to history, we see the frightening rise in prestige and political power of a vain, vulgar, sinister man who thrived on cruelty and hate and would stop at nothing to keep the horror of his inner life hidden from the world.

Stalin Robert Conquest 1991 A portrait of the Soviet leader describes Stalin's childhood, his roles as student, revolutionary, and communist theoretician, his clash with Lenin, the great Terror, and the Nazi-Soviet pact

The Faces of Europe Alan Bullock 1980 A discussion of the development of the culture and society of Europe includes examinations of art, farming, science, and politics

Machiavelli Alexander Lee 2020-03-19 "A wonderfully assured and utterly riveting biography that captures not only the much-maligned Machiavelli, but also the spirit of his time and place. A monumental achievement." — Jessie Childs, author of *God's Traitors: A notorious fiend, 'generally odious', 'he seems hideous, and so he is.'* Thanks to the invidious reputation of his most famous work, *The Prince*, Niccolò Machiavelli exerts a unique hold over the popular imagination. But was Machiavelli as sinister as he is often thought to be? Might he not have been an infinitely more sympathetic figure, prone to political missteps, professional failures and personal dramas? Alexander Lee reveals the man behind the myth, following him from cradle to grave, from his father's penury and the abuse he suffered at a teacher's hands, to his marriage and his many affairs (with both men and women), to his political triumphs and, ultimately, his fall from grace and exile. In doing so, Lee uncovers hitherto unobserved connections between Machiavelli's life and thought. He also reveals the world through which Machiavelli moved: from the great halls of Renaissance Florence to the court of the Borgias, Alexander VI, from the dungeons of the Stinche prison to the Rucellai gardens, where he would begin work on some of his last great works. As such a portrait of an age as of a uniquely engaging man, Lee's gripping and definitive biography takes the reader into Machiavelli's world — and his work — more completely than ever before.

Fallen Eagle Robin Cross 2000

Is History Becoming a Social Science? Alan Bullock 1977

Hitler, a Study in Tyranny Alan Bullock 1971 The sources for this exhaustive study included the massive German archives, evidence given at the Nuremberg trials, and countless documents, speeches, memoirs and diaries of men in close contact with the Fuhrer.

The Castle in the Forest Norman Mailer 2007-10-16 The final work of fiction from Norman Mailer, a defining voice of the postwar era, is also one of his most ambitious, taking as its subject the evil of Adolf Hitler. The narrator, a mysterious SS man in possession of extraordinary secrets, follows Adolf from birth through adolescence and offers revealing portraits of Hitler's parents and siblings. A crucial reflection on the shadows that eclipsed the twentieth century, Mailer's novel delivers myriad twists and surprises along with characteristically astonishing insights into the struggle between good and evil that exists in us all. Praise for *The Castle in the Forest* "This remarkable novel about the young Adolf Hitler, his family and their shifting circumstances, is Mailer's most perfect apprehension of the absolutely alien. . . . Mailer doesn't inhabit these historical figures so much as possess them." —The New York Times Book Review "Terrifically creepy . . . an icy and convincing portrait of the dictator as a young sociopath." —Entertainment Weekly "The work of a bold and confident writer who may yet be seen as the preeminent novelist of our time . . . a source of tremendous narrative pleasure . . . Every character . . . lives and breathes." —South Florida Sun-Sentinel "Blackly hilarious, beautifully written . . . [The Castle in the Forest] has vigor, excitement, humor and vastness of spirit." —The New York Observer Praise for Norman Mailer "[Norman Mailer] loomed over American letters longer and larger than any other writer of his generation." —The New York Times "A writer of the greatest and most reckless talent." —The New Yorker "Mailer is indispensable, an American treasure." —The Washington Post "A devastatingly alive and original creative mind." —Life "Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance." —The New York Review of Books "The largest mind and imagination [in modern] American literature . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book." —Chicago Tribune "Mailer is a master of his craft. His language carries you through the story like a leaf on a stream." —The Cincinnati Post

A History of the Soviet Union, 1945-1991 John L. H. Keep 2002 The Soviet Union is a subject of enduring fascination for the whole of the Western world. This book focuses on the main cultures, political, social, and economic developments in the USSR since 1945.

Koba the Dread Martin Amis 2014-09-17 A brilliant weave of personal involvement, vivid biography and political insight, *Koba the Dread* is the successor to Martin Amis's award-winning memoir, *Experience*. *Koba the Dread* captures the appeal of one of the most powerful belief systems of the 20th century — one that spread through the world, both captivating it and staining it red. It addresses itself to the central lacuna of 20th-century thought: the indulgence of Communism by the intellectuals of the West. In between the personal beginnings and the personal ending, Amis gives us perhaps the best one-hundred pages ever written about Stalin: *Koba the Dread*, *Iosif the Terrible*. The author's father, Kingsley Amis, though later reactionary in tendency, was a "Comintern dogsbody" (as he would come to put it) from 1941 to 1956. His second-closest, and then his closest friend (after the death of the poet Philip Larkin), was Robert Conquest, our leading Sovietologist whose book of 1968, *The Great Terror*, was second only to Solzhenitsyn's *The Gulag Archipelago* in undermining the USSR. The present memoir explores these connections. Stalin said that the death of one person was tragic, the death of a million a mere "statistic." *Koba the Dread*, during whose course the author absorbs a particular, a familial death, is a rebuttal of Stalin's aphorism.

Building Jerusalem Alan Bullock 2000 Frank Allen Bullock was born in March 1887 on the borders of Somerset and Wiltshire, the son of a signalman on the Great Western Railway. He left school at 13 and became a gardener, a craft at which he excelled. But he continued his education by spending what money he could spare on buying second-hand copies of Carlyle, Macaulay, Froude and whatever else he could find or borrow, and in early manhood he discovered a talent for speaking. After a brief involvement with Liberal politics, he decided to become a Unitarian minister.

Telling Lies about Hitler Richard J. Evans 2002 Richard J. Evans worked on the historical evidence on behalf of the defence during the Irving libel trial. In *Telling Lies about Hitler*, the author discusses the importance of historical writing and the social role of historians in such trials.

Hitler Joachim Fest 2013-02-01 "The best single volume available on the torturous life and savage reign of Adolf Hitler." —Time A bestseller in its original German edition and subsequently translated into more than a dozen languages, Joachim Fest's Hitler has become a classic portrait of a man, a nation, and an era. Fest tells and interprets the extraordinary story of a man's and nation's rise from impotence to absolute power. As Germany and Hitler, from shared premises, entered into their covenant. He shows Hitler exploiting the resentments of the shaken, post-World War I social order and seeing through all that was hollow behind the appearance of power, at home and abroad. Fest reveals the singularly penetrating politician, hypnotizing Germans and outsiders alike with the scope of his projects and the theatricality of their presentation. Perhaps most importantly, he also brilliantly uncovers the destructive personality that aimed for and achieved devastation on an unprecedented

scale. As history and biography, this is a towering achievement, a compelling story told in a way only a German could tell it: "dispassionately, but from the inside" (Time).

**Gulag Literature and the Literature of Nazi Camps** Leona Toker 2019-08-28 A literary scholar examines survival narratives from Russian and German concentration camps, shedding new light on testimony in the face of evil. In this illuminating study, Leona Toker demonstrates how Holocaust literature and Gulag literature provide contexts for each other, especially how the prominent features of one shed light on the veiled features and methods of the other. Toker's analysis concentrates on the narrative qualities of the works as well as how each text documents the writer's experience in a form where fictionalized narrative can double as historical testimony. Toker also views these texts against the background of historical information about the Soviet and the Nazi regimes of repression. Writers at the center of this work include Varlam Shalamov, Primo Levi, Elie Wiesel, and Ka-Tzetnik, and others, including Aleksandr Solzhenitsyn, Evgeniya Ginzburg, and Jorge Semprún, illuminate the discussion. Toker also provides context for references to potentially obscure historical events and shows how they form new meaning in the text.

**The Past and the Future** Alan Bullock 1982-01-01 Alan Bullock demonstrates the continuity of mankind's thought and concerns from the historical past, through the troubled and often confusing present into the almost invisible future. This continuum offers us a basis for achieving understanding and perspective, for relating past, present and future. Without seeing this relationship, the moment of our lifetime must seem isolated and meaningless. Co-published with the Aspen Institute.

**An Appeal to the Tiring, Oppressed and Exhausted Peoples of Europe** Leon Trotsky 2008-08-07 Whether calling for an end to the capitalist system, addressing the crowds after the Russian Revolution, or attacking Stalin during his years of exile, Trotsky's speeches give an extraordinary insight into a man whose words and actions determined the fates of millions. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

**Hitler and Stalin** Alan Bullock 2019-12-11 Forty years after his *Hitler: A Study in Tyranny* set a standard for scholarship of the Nazi era, Lord Alan Bullock gives readers a breathtakingly accomplished dual biography that places Adolf Hitler's origins, personality, career, and legacy alongside those of Joseph Stalin—his implacable antagonist and moral mirror image.

**Hitler and Stalin** Alan Bullock 1998 Hitler and Stalin never met. This book interweaves their lives chronologically, chapter by chapter, often paragraph by paragraph. Bullock has added revisions to take account of the revelations from the newly-opened Kremlin archive.

**What Hitler Knew** Zachary Shore 2005-02-24 What Hitler Knew is a fascinating study of how the climate of fear in Nazi Germany affected Hitler's advisers and shaped the decision making process. It explores the key foreign policy decisions from the Nazi seizure of power up to the hours before the outbreak of World War II. Zachary Shore argues persuasively that the tense environment led the diplomats to a nearly obsessive control over the "information arsenal" in a desperate battle to defend their positions and to safeguard their lives. Unlike previous studies, this book draws the reader into the diplomats' darker world, and illustrates how Hitler's power to make informed decisions was limited by the very system he created. The result, Shore concludes, was a chaotic flow of information between Hitler and his advisers that may have accelerated the march toward war.

**The Dictators** Richard Overy 2005-04-28 Half a century after their deaths, the dictatorships of Stalin and Hitler still cast a long and terrible shadow over the modern world. They were the most destructive and lethal regimes in history, murdering millions. They fought the largest and costliest war in all history. Yet millions of Germans and Russians enthusiastically supported them and the values they stood for. In this first major study of the two dictatorships side-by-side Richard Overy sets out to answer the question: How was dictatorship possible? How did they function? What was the bond that tied dictator and people so powerfully together? He paints a remarkable and vivid account of the different ways in which Stalin and Hitler rose to power, and abused and dominated their people. It is a chilling analysis of powerful ideals corrupted by the vanity of ambitious and unscrupulous men.

**Napoleon and Hitler** Desmond Seward 2013-06-25 Napoleon Bonaparte and Adolf Hitler were two of history's greatest dictators. In this ground-breaking study, Desmond Seward finds striking parallels between their careers and their roles in shaping the destiny of modern Europe. He also shows how Carl von Clausewitz's classic treatise *On War* - a penetrating analysis of the Napoleonic campaigns read and re-read by Hitler - provides a crucial link between the two men. Napoleon and Hitler demonstrates in an entirely new way how history can repeat itself - and gives new and unexpected insights into these two terrible giants of modern times. "A careful study, clearly written, easy to read. He takes us through the careers of both men in turn, side by side, noting the similarities as he goes along. I am reminded of Plutarch's 'parallel lives' of the great Greeks and Romans... His interesting book deserves to be read both by those who would 'demonise' Hitler and those who are dazzled by Napoleon." Hugh Trevor-Roper - Sunday Telegraph "Desmond Seward is right to draw attention to their similarities, and to their differences. We should study both: both are among the possibilities inherent in our civilisation." Independent "Solid historical biography with a compelling historical slant." Booklist "A clever and cohesive look at megalomania in action." Kirkus Review

**Napoleon and de Gaulle** Patrice Gueniffey 2020-05-12 One of France's most famous historians compares two exemplars of political and military leadership to make the unfashionable case that individuals, for better and worse, matter in history. Historians have taught us that the past is not just a tale of heroes and wars. The anonymous millions matter and are active agents of change. But in democratizing history, we have lost track of the outsized role that individual will and charisma can play in shaping the world, especially in moments of extreme tumult. Patrice Gueniffey provides a compelling reminder in this powerful dual biography of two transformative leaders, Napoleon Bonaparte and Charles de Gaulle. Both became national figures at times of crisis and war. They were hailed as saviors and were eager to embrace the label. They were also animated by quests for personal and national greatness, by the desire to raise France above itself and lead it on a mission to enlighten the world. Both united an embattled nation, returned it to dignity, and left a permanent political legacy—in Napoleon's case, a form of administration and a body of civil law; in de Gaulle's case, new political institutions. Gueniffey compares Napoleon's and de Gaulle's journeys to power; their methods; their ideas and writings, notably about war; and their postmortem reputations. He also contrasts their weaknesses: Napoleon's limitless ambitions and appetite for war and de Gaulle's capacity for cruelty, manifested most clearly in Algeria. They were men of genuine talent and achievement, with flaws almost as pronounced as their strengths. As many nations, not least France, struggle to find their soul in a rapidly changing world, Gueniffey shows us what a difference an extraordinary leader can make.

**The Pursuit of the Nazi Mind** Daniel Pick 2012-06-14 The story of how psychoanalysis was used in the war against Nazi Germany - in the crucial quest to understand the Nazi mind. Daniel Pick brings both the skills of the historian and the trained psychoanalyst to weave together the story of clinical encounters with leading Nazis and the Allies' broader interpretations of the Nazi high command and the mentality of the wider German public who supported them. Following the bizarre capture of Hitler's deputy Rudolf Hess in 1941, Pick follows closely the story of how leading British psychiatrists assessed their new charge, in an attempt to understand both the man himself and the psychological bases of his Nazi convictions. At the same time, he uncovers the story of how a team of American officers working for the OSS, the forerunner of the CIA, were engaged in an attempt to understand Hitler's personality from afar, using the theories and techniques of Sigmund Freud. Drawing upon a large cache of archives on both sides of the Atlantic, Pick asks what such psychoanalytical and psychiatric investigations set out to do, showing how Freud's famous 'talking cure' was harnessed to the particular needs of military intelligence during the war and the task of post-war reconstruction that followed. Looking beyond this, he then shows just how deeply post-war Western understandings of how minds work and groups operate were influenced by these wartime attempts to interpret the psychopathology of Nazism.

**Crucible of Hell** Saul David 2021-05-04 From the award-winning historian, Saul David, the riveting narrative of the heroic US troops, bonded by the brotherhood and sacrifice of war, who overcame enormous casualties to pull off the toughest invasion of WWII's Pacific Theater -- and the Japanese forces who fought with tragic desperation to stop them. With Allied forces sweeping across Europe and into Germany in the spring of 1945, one enormous challenge threatened to derail America's audacious drive to win the world back from the Nazis: Japan, the empire that had extended its reach southward across the Pacific and was renowned for the fanaticism and brutality of its fighters, who refused to surrender, even when faced with insurmountable odds. Taking down Japan would require an unrelenting attack to break its national spirit, and launching such an attack on the island empire meant building an operations base just off its shores on the island of Okinawa. The amphibious operation to capture Okinawa was the largest of the Pacific War and the greatest air-land-sea battle in history, mobilizing 183,000 troops from Seattle, Leyte in the Philippines, and ports around the world. The campaign lasted for 83 blood-soaked days, as the fighting plumbed depths of savagery. One veteran, struggling to make sense of what he had witnessed, referred to the fighting as the "crucible of Hell." Okinawan civilians died in the tens of thousands: some were mistaken for soldiers by American troops; but as the US Marines spearheading the invasion drove further onto the island and Japanese defeat seemed inevitable, many more civilians took their own lives, some even murdering their own families. In just under three months, the world had changed irrevocably: President Franklin D. Roosevelt died; the war in Europe ended; America's appetite for an invasion of Japan had waned, spurring President Truman to use other means -- ultimately atomic bombs -- to end the war; and more than 250,000 servicemen and civilians on or near the island of Okinawa had lost their lives. Drawing on archival research in the US, Japan, and the UK, and the original accounts of those who survived, *Crucible of Hell* tells the vivid, heart-rending story of the battle that changed not just the course of WWII, but the course of war, forever.

**The Atlas of World War II** John Pimlott 2022-06-21 The Atlas of World War II traces the course of the conflict chronologically by showing each major campaign as a full-color map, further illustrated by archive action pictures. Skillfully bringing to life the human experience of war with eyewitness accounts of the struggle, this book presents the political and strategic conditions that led to the war, offering a unique insight into military operations and tactics. World War II remains a topic of fascination and study, and this book is an ideal addition to the shelves of all interested readers.

**The Russian Empire, 1801-1917** Hugh Seton-Watson 1988 A political and social history of the Russian Empire, looking at significant people and events from the reign of Alexander I to the abdication of Nicholas II.

**Hitler and Stalin** Laurence Rees 2021-02-02 An award-winning historian plumbs the depths of Hitler and Stalin's vicious regimes, and shows the extent to which they brutalized the world around them. Two 20th century tyrants stand apart from all the rest in terms of their ruthlessness and the degree to which they changed the world around them. Briefly allies during World War II, Adolf Hitler and Josef Stalin then tried to exterminate each other in sweeping campaigns unlike anything the modern world had ever seen, affecting soldiers and civilians alike. Millions of miles of Eastern Europe were ruined in their fight to the death, millions of lives sacrificed. Laurence Rees has met more people who had direct experience of working for Hitler and Stalin than any other historian. Using their evidence he has pieced together a compelling comparative portrait of evil, in which idealism is polluted by bloody pragmatism, and human suffering is used casually as a political tool. It's a jaw-dropping description of two regimes stripped of moral anchors and doomed to destroy each other, and those caught up in the vicious magnetism of their leadership.

**Winston Churchill** John Keegan 2007-10-30 One of the greatest historians writing today gives us a defining portrait of the incomparable Winston Churchill in his landmark biography of Winston Churchill, acclaimed historian John Keegan offers a very human portrait of one of the twentieth century's enduring symbols of heroic defiance. From Churchill's youth as a poor student to his leadership during World War II, Keegan reveals a man whose own idea of an English past—eloquently embodied in his speeches—allowed him to exhort a nation to unprecedented levels of sacrifice. The result is a uniquely discerning look at one of the most fascinating personalities in history. "The best military historian of our generation." —Tom Clancy

**What Stalin Knew** David E. Murphy 2005-06-11 This "riveting account of one of history's greatest blunders" chronicles Russia's tragic mishandling of Nazi Germany's invasion during WWII (William L. O'Neill, *The New Leader*). On June 22, 1941, Nazi Germany's Operation Barbarossa was launched against Russia. Within days, the invading army had taken hundreds of thousands of Soviet captives while the Luftwaffe bombed a number of Russian cities, including Minsk. Though accurate intelligence about the plan had been available to Stalin before the attack, he chose not to heed the warning. In *What Stalin Knew*, historian and former chief of the CIA's Soviet division David E. Murphy illuminates many of the enigmas surrounding the catastrophic invasion, offering keen insights into Stalin's thinking and the reasons for his fatal error of judgment. A story of successful misinformation campaigns, and a leader more paranoid about threats from within his regime than from an aggressive neighbor, this authoritative history sheds essential new light on the most consequential event in the Eastern Front of World War II. "If, after the war, the Soviet Union had somehow been capable of producing an official inquiry into the catastrophe of 6/22—comparable in its mandate to the 9/11 commission here—its report might have read a little like [this book]. . . . Murphy brings to his subject both knowledge of Russian history and an insider's grasp of how intelligence is gathered, analyzed and used—or not." —Niall Ferguson, *The New York Times Book Review* "A fascinating and meticulously researched account of mistaken assumptions and errors of judgment. . . . Never before has this fateful period been so fully documented." —Henry A. Kissinger
