Development and Evaluation of Positive Adolescent Training through Holistic Social Programs (P.A.T.H.S.) Daniel T.L. SHEK 2013-06-28 This book outlines the development, implementation and evaluation of a project entitled "P.A.T.H.S. to Adulthood: A Jockey Club Youth Enhancement Scheme," with P.A.T.H.S. denoting Positive Adolescent Training through Holistic Social programmes. This pioneer project was conducted in Hong Kong between 2005 and 2012 with more than 210,000 participants. Its goal was to help students meet various challenges in their path to adulthood, with a focus on their psychosocial competencies, developmental assets and the promotion of healthy peer relationships. The project was initiated by The Hong Kong Jockey Club Charities Trust in collaboration with the Government's Social Welfare Department, Education Bureau and five universities in Hong Kong. Edited by the researchers of the project, Development and Evaluation of Positive Adolescent Training through Holistic Social Programs explores the nature of positive youth development (PYD), the application of PYD constructs to youth programs and implementation issues. Using multiple strategies, the book evaluates the overall effectiveness of the P.A.T.H.S. school-based programme and reveals that stakeholders had positive perceptions of the project, its implementers and benefits. Students in the program showed better positive development and displayed lower levels of substance abuse and delinquent behaviour than students in the control schools. The book also details lessons learned, emergent issues, future directions as well as insights into the development of positive youth development programs particularly in Chinese communities. Development and Evaluation of Positive Adolescent Training through Holistic Social Programs will appeal to all educators, administrators, psychologists, social workers and allied professionals looking to promote whole-person development in their students, especially those with an interest in education in China.

How to Answer Interview Questions Eleanor Richardson 2020-03-15 Do you want a grasp of the art of successful interviewing? Then continue reading. Here, I offer you the ultimate guide to the process of preparation for an execution of interviews with more than 100 smart answers to job interviewer's most frequently asked questions. It is one thing to know what questions you are likely to face in an interview, be it with a panel or a one-on-one interview; it is quite another to know the right way to answer these questions to optimize your chances of success. Here, I take you on an exploratory tour of the interviewing world with an evaluation of possible questions you are likely to face and the approaches to answers likely to get you that coveted promotion, job, or grant. I've lost count of the number of times I really wanted to halt an interview and provide coaching to a job candidate. They look great on paper, and their actual work experience and education is a near-perfect match for my organization. They perform well on the phone screening with human resources, and then they totally blow it when they interview with me in person. We covered various aspects of interviewing; we delve into greater depth about things you need to know about the interviewing process - how to prepare, how to answer key questions, and how to act during an interview. I have intentionally condensed all this into a form you can read, absorb, and begin using quickly. Learn the game, and you can dramatically raise your odds of getting almost any job. For now, I'm going to give you some very high-level basics to incorporate into how you approach and conduct yourself during an interview. If you read nothing else in this book, read these. Your tone of voice should reflect the material you are responding with, but should never be monotone. You should show excitement, be contrite when appropriate, and be serious or light-hearted, depending on the subject of your response. Be human. We give a breakdown of different interview questions, scenarios, circumstances, and settings. The immediate environment and your interviewer determine the preparation going into the interview and your chances of success. For example, competency-based questions are different from brain teasers, which differ from traditional, web, or communication questions. Moreover, one-on-one questions or settings differ from a panel interview. We evaluate all these aspects with a focus on the type of questions you are likely to face, and the most thought-out, universal, and likely-to-impress answers. Given this backdrop, if you want an authoritative, insightful, and predictive guide to interviewing, and if you "need" to succeed by "wowing" or "acing" interviews, you really need to read on! Here is what you are going to discover inside: Learn the most basic question you need to ask How to answer interview questions from the panel How to answer competency questions How to answer brain teaser question Traditional questions How to answer open based questions How to answer web interview questions How to answer salary interview How to answer interview questions And much more Are you ready?
