Could it be Adult ADHD? Jan Willer 2017-03-06 One out of every 10 adult psychotherapy clients likely has ADHD. Due to high comorbidities with depression, anxiety, substance abuse, and other mental disorders, along with considerable behavioral dysfunction, adult ADHD is even more common in clinical populations than the general public. When an ADHD diagnosis is missed, psychotherapy is often frustrating and less effective. Could it be Adult ADHD? is for mental health professionals who wish to learn how to recognize, assess, and treat adult ADHD. Written in a style maximally accessible to the practicing mental health professional, this book educates early-career psychotherapists and experienced professionals alike on the disorder and its treatment. Author Jan Willer provides a full description of adult ADHD symptoms, based on the most current research, including executive functioning problems, emotional dysregulation, atypical reward sensitivity, and problems with time perception. Recognizing patterns of dysfunction is essential to identify ADHD, so two detailed composite cases are presented, along with supplemental case material. Strengths that may be associated with ADHD are described. Willer offers guidance on providing psychoeducation about cognitive differences in ADHD, which is essential for client self-acceptance and adaptive functioning. Common psychotherapy problems with ADHD clients are addressed, including chronic lateness to sessions, missed appointments, motivation problems, difficulties with homework, and tangentiality. Willer also discusses medications for ADHD, including their benefits, contraindications, and side effects, and reviews the effectiveness of non-traditional treatments.

Beautiful, sad Ellen Beniger; her younger brother, Tom, a scholar unhappily moonlighting as a TV writer; the athletic amorist Guy Cinturon; and tough little Eddie Bissle, ex-infantryman and Ellen's secret lover, struggle to come to grips with the limits of their futures and the scars of their pasts as they enter middle age. Will the physical, emotional, and spiritual violations they have endured remain with them forever, or can they be healed?
