A Baby Boomer's Story Gary Dixon 2011-11 This book is about an era in our country when American children received more freedom than any other time in American history. After the Vietnam War ended, some American Baby Boomers totally abused this freedom. This book contains many stories about some of those Baby Boomers who were taking full advantage of these times, with no regret or regard of the consequences. Many of the stories you will read about are unethical, immoral, and sometimes disturbing. This book is about a Baby Boomer's life, and many of the unique people and events which occurred through these times. You will also read about certain subjects such as sex, drugs, and rock and roll, which were the trademarks of that era. The Baby Boomers not only broke all the rules which took generations to establish: They set new trends and guidelines for many generations to come. They also created a whole new way of life for the American child. Originally from the suburbs of Detroit Michigan, Gary Dixon managed to escape the magnetism of the big city life. He now calls Clearwater Florida his home. From a family of nine children, his family could definitely be considered a Baby Boomer family. With the Baby Boom era in full force, there were not too many places in America to elude the temptations of recreational drug use, and the casual sex scene. Since the Baby Boomers created this new kind of lifestyle, almost every young person in America is a part of it. Gary Dixon and many of his friends not only became a part of it, they took it to a whole new level. Living through this era, his life became very unique and eccentric, and he developed many stories along the way. He would like to share these stories with anyone interested, or any other Baby Boomers who grew up during these times.

A Baby Boomer's Times, Travels, Thoughts, and Hopes Martin Feess 2018-12-21 Born in 1949, Martin Feess joined the American baby boomer generation—one of the most privileged groups of people to ever walk the earth. While growing up in a small Wisconsin town on a picturesque lake, Feess learned about Dick and Jane, collected an abundance of toys, played baseball, and watched hours of television westerns, just like many other boys of his generation. In a fascinating story of a boomer seen through a boomer's eyes, Feess leads others through his experiences as part of the disillusioned generation of the Vietnam War as he matured, served in the military, attended college, and moved west to begin a new chapter. While sharing personal anecdotes, observations, and lessons learned, Feess provides a look into how his journey eventually took him to the Middle East, Europe, and Asia where he learned to embrace the perspectives of others living around the world. Through his experiences and historical reflections, Feess offers an educational window into the making of a unique generation that today looks back in laughter and forward in hope while attempting to better understand who we all are as Americans. **A Baby Boomer's Times, Travels, Thoughts, and Hopes** shares personal stories, observations, and historical facts that provide an entertaining and thought-provoking slice of Americana.

Hollywood and the Baby Boom James Russell 2017-12-28 Between 1946 and 1964 seventy-five million babies were born, dwarfing the generations that preceded them. At each stage of its life-cycle, the baby boom's great size has dictated the terms of national policy and public debate. While aspects of this history are well-documented, the relationship between the baby boom and Hollywood has never been explored. And yet, for almost 40 years, baby boomers made up the majority of Hollywood's audience, and since the 1970s, boomers have dominated movie production. **Hollywood and the Baby Boom** weaves together interviews with leading filmmakers, archival research and the memories of hundreds of ordinary filmgoers to tell the full story of Hollywood's relationship with the boomers for the first time. The authors demonstrate the profound influence of the boomers on the ways that movies were made, seen and understood since the 1950s. The result is a compelling account that draws upon an unprecedented range of sources, and offers new insights into the history of American movies.

Generational IQ for the Workplace and Home Haydn Shaw 2016-10-01 This collection bundles 2 of popular author Haydn Shaw's books together in one eBook, for a great value! **Sticking Points** This is the first time in American history that we have had four different generations working side-by-side in the workplace: Traditionalists (born before 1945), the Baby Boomers (born 1945-1964), Gen X (born 1965-1980), and the Millennials (born 1981-2001). Haydn Shaw, popular business speaker and generational expert, has identified 12 places where the 4 generations typically come apart in the workplace (and in life as well). These sticking points are around differing attitudes toward managing one's own time, texting, social media, organizational structure, and of course, clothing preferences. If we don't learn to work together and stick together around these 12 sticking points, then we'll be wasting a lot of time fighting each other instead of enjoying a friendly and productive team. **Sticking Points** is a must-read book that will help you understand the generational differences you encounter while teaching how we can learn to speak each other's language and get better results together. **Generational IQ** Why is my daughter drifting from God? Why can't I explain my life choices to my parents? Why will my son get a real job? Within the last several decades, the world has shifted dramatically. The cracks of this fundamental shift appear everywhere: in our education, in our cultural debates, in our political landscape, and, most important, in our churches. The problem is we tend to overreact to these changes, fearing that Christ is dying. We need better Generational IQ, so we can respond to the changes but not be terrified by them. We need a wise generational coach. Haydn Shaw is that coach. A generational expert, showing us the roots of this generational shift and how it affects every one of us. Each generation, whether it's the aging Boomers or the young Millennials, approaches God with a different set of questions and needs based on the times in which they grew up. Haydn walks you through these generational differences and paints a vision of hope for the future.

The Long Baby Boom Jeff Goldsmith 2008-05 Rejecting catastrophic predictions regarding the coming financial upheaval due to aging baby boomers, the author argues that most baby boomers plan on working past age sixty-five and that, with a little help, they will have a constructive impact on society and will take on a large

their retirement and health-care costs.

Baby Boomer Lamentations Lewis Tagliaferre 2013-05-01 Today there are approximately seventy-six million Americans who were born in the years from 1946 to 1965—the baby boomers. In their youth they thrived, voting for a number of entitlements based on assumptions of economic growth that no longer applies. Now as boomers continue aging, they must face a number of potentially disheartening realities. From caring for ailing parents to funding their retirement to facing death, issues weigh too heavily upon the minds of the baby boomer generation to allow for a peaceful, productive second half of life. What's more, many of the spiritual systems passed down for so many generations no longer provide the comfort or support people need in order to face the challenges of the later half of life. They need something new. In this second edition of *Baby Boomer Lamentations*, author and self-proclaimed religious philosopher Lewis Tagliaferre explores the concept of Theofatalism and addresses the rising spiritual concerns of the baby boomers, offering a new outlook to help readers make the inevitable transitions through the years of life.

A Baby Boomer's Decision Making Francis J. Kostel 2010-08 A Baby Boomer's Decision Making drives the nation's 75 million baby boomers to examine life through the decisions they make, whether they are considering finances, changing national priorities or the needs of aging parents. Boomers will explore decisions of love, sex, career, family and fun. From 1956 Chevrolets to Martin Luther King Jr., Vietnam and the 21st century, memoir snippets expose the author's best and worst decisions. From these engaging stories, a model of decision making emerges driven by individual experience in a distinctive combination of understanding, relationships and God. A Baby Boomer's Decision Making creates a bridge from abstract theoretical manuscripts to the daily reality, dreams and apprehensions of baby boomers. Mathematics unlocks the tools of decision making, and prejudice is an omnipresent force. The peaks and valleys of love, family and career highlight the ingredients of decision making. Guidelines and principles of decision making solidify and further assist readers in reviewing the past, assessing the present and preparing for the future. A series of activities and questions at the end of the book encourage individual reflection or small group discussion. Francis J. Kostel earned a Ph.D. from the University of Chicago. As superintendent of schools in suburban Chicago's St. Charles, he led the district of more than 13,000 students, 1,600 staff members at 15 schools. He also served as principal of St. Charles High School, a nationally recognized Blue Ribbon high school, as a leadership consultant and as a mathematics teacher. From the working-class neighborhoods of Chicago to the White House Rose Garden, Kostel has experience with organizational success and conflict resolution. Through August One Consulting, Kostel serves as an executive coach and mentor. Kostel has given presentations throughout the country on leadership, strategic planning, personnel evaluation, change and policy decisions. He has written several articles and served on statewide and regional boards. Kostel is a choir member and ballroom dancer. He and his wife, the love of his life for more than 38 years, have two adult sons. Comments and inquiries regarding A Baby Boomer's Decision Making and August One Consulting are welcome at augustone@sbcglobal.net.

Leisure Programming for Baby Boomers Lynda Jeanine Cochran 2009 The baby boomers—those born between 1946 and 1964—are a generation that consists of nearly 76 million Americans. Beginning in 2011, this large and influential population will begin their transition out of the workforce. As baby boomers enter retirement, they will be looking for opportunities in fitness, sports, outdoors, arts and cultural events, and other activities that suit their vibrant lifestyles. With their varied life experiences, values, and expectations, baby boomers are predicted to redefine the meaning of recreation and leisure programming for mature adults. Though many researchers have forecast the boomers' impact on the future, only Leisure Programming for Baby Boomers addresses key information that recreation and leisure professionals need in order to make program decisions with baby boomers in mind. The authors combine their research, programming, and marketing expertise to provide insights into the values and lifestyle choices of boomers and offer programming and marketing strategies to reach this large and influential population. Leisure Programming for Baby Boomers will help you move beyond the traditional offerings of bingo, art classes, and social dances to capture the attention and imagination of your baby boomer community. This comprehensive guide offers these features: -An in-depth review of current research to help you understand the values, interests, and needs of the boomer generation -Guidance in adopting a "boomer lens" so you can more easily recognize the opportunities in working with this group and create market programs that appeal to the values of this unique generation -The Cochran Baby Boomer Quiz, a tool that can be used not only in assessing the program preferences of the boomers in your community, but also in testing your staff's knowledge of boomers and preparing them to work more effectively with this group -Strategies, guidelines, and ready-to-use ideas for boomer-specific programming in arts and culture, outdoor recreation, education, wellness, and tourism -Marketing templates and strategies that will attract boomers and keep them coming to your programs With Leisure Programming for Baby Boomers, you'll discover what distinguishes the baby boomer generation from previous generations in regard to their demographic makeup, gender differences, cultural influences, brand loyalty, consumer behavior, and spending patterns. Based on current research, Leisure Programming for Baby Boomers explains the boomer generation in terms of five value areas specific to recreation and leisure programming: cultural influences, healthy aging and society, retirement, leisure pursuits, and economic levels. Using this knowledge, you'll learn how to consider these generational values to create effective marketing messages and plan appropriate programming. Leisure Programming for Baby Boomers presents a range of detailed program ideas and formats that fulfill the interests of this new clientele so you can start offering new programs right away. It also offers guidelines and examples that will help you plan your own programs to meet the needs of your community. You'll find all the tools you need to market new programs, including techniques for attracting boomers to your programs and marketing templates that make implementing your marketing strategies simple. Information on key topics such as marketing psychology; advertising beyond the brochure; motivating, recruiting, and communicating at the front lines; and creating and maintaining a focused image will help you better understand how to market programs. In this demand-driven occupation, recreation professionals must be prepared to market and deliver a wide range of leisure opportunities to serve the boomer generation. Is your recreation or leisure program ready for the baby boomers? Leisure Programming for Baby Boomers will help you understand the unique profile of the boomer generation and respond with creative programs that will add value and vitality to the leisure lives of this new generation of mature adults.

Universal Design Roberta Null 2013-09-26 As the baby boom generation ages, it is crucial that designers understand all they can about bringing this group, as well as others, design that will offer function, aesthetics, and quality of life. Full of examples and illustrated with pictures of good design, Universal Design: Principles and Models details how the principles of universal design (UD) can be used to evaluate all products and places. Universal design is ubiquitous; therefore good examples are essential to understanding. This book includes more than 50 case studies that demonstrate successful applications of UD principles and helps professors develop curriculum and teaching strategies. More than 300 color photographs and drawings further illustrate the principles and best practices. The book includes topics from the development of ergonomic chairs for home and office to the unique environmental concerns of those sensitive to electronic and chemical emissions. The examples illustrate a variety of user/groups in different situations and clearly demonstrate the design directives for meeting their needs. The author explores the definitions of UD, enabling readers to identify those most meaningful to large portions of the population. Universal design (UD) facilitates the comfort and navigation of those with failing eyesight or restricted mobility, and the family members and professionals who care for them. Whether at home, work, or a public place, people appreciate the beautiful and the practical. This book takes a vital and meaningful approach, going beyond the basics and delving into details. It gets to the heart of the matter and supplies an understanding of design from a greater perspective.

Finding the Silver Lining Judy Love Rondeau 2018-08-15 They are a demographer's delight and a marketer's challenge. They are the baby boomers, and conservative estimates put them in control of 70 percent of disposable income in the United States. They are also growing older, developing health issues and are often caring for their own aged parents. For 43.5 million Americans, caregiving for someone over age 50 is their 'new normal', including many who are caregiving while still in the workforce and others who may still have adult children living at home. Finding the Silver Lining is a practical resource based on the experience of a couple providing care to the author's aging parents over a period of 20-plus years. It traces the myriad health, social, economic and psychological realities of facing the mortality of one's own parents and preparing for them in a way that will reduce stress and provide administrative clarity. This book also covers the author's journey from a working woman and CEO of her own company into retirement, as Baby Boomers transition into the next stage of life. Finding the Silver Lining is a compendium of expert advice from a range of highly credible sources, layered in with the personal experiences of a loving and committed daughter and son-in-law. As a singular personal reference, it will provide the reader with reassurance that you are not alone and that there are many valuable resources almost at your fingertips.

A Baby Boomer's Guide to Their Second Spring Ryan Custer Amacher 2012-03-15 While this book was written for male Baby Boomers and their significant others, it also includes Boomer history and what lies ahead as we experience the decade of our own sixties. This story reviews our Boomer luck, recounts the great history of a kid in the 1950s, and the great opportunities provided by improved education in the 1960s, not to ignore a seemingly mind expanding culture. Turning sixty is not the faint hearted. There are issues ahead. The first thing we all face is taking care of aging parents or what the author refers to as helping your parents check their boxes. There are our own Boomer health issues including cataracts and prostate cancer. You likely think there is nothing funny about these topics but the quirky economic

author finds humor in all of our aging experiences. This book covers Boomer issues, all in the context of our Boomer culture. We Boomers thought we would be forever. Maybe that is why it is so amusing. RYAN CUSTER AMACHER was born 52 days too early to be an "official" Baby Boomer, but he in no way ever considers himself a member of Tom Brokaw's "Greatest Generation." In this book, the author chronicles the good luck of the first sixty years of the Boomer experience and guides Boomers into the humorous, but sobering experience of their personal sixties. Amacher, an economist, has a BA degree from Ripon College and a PhD from the University of Virginia. He has been a professor at the University of Oklahoma, Economics Department Chair at Arizona State, Business Dean at Clemson University, and President of the University of Texas at Arlington where he is now a Professor of Economics. He has worked at the Pentagon, writing a market plan for the Volunteer Army, the Federal Trade Commission as a consultant, and the US Treasury, on the Law of The Sea negotiations.
