Joey Green has returned to Beaufort, South Carolina, with its palmettos and shrimp boats, to look after his ailing father, who is succumbing to dementia, while his overstressed mother takes a break. Marshall Green's short-term memory has all but evaporated, but, as if in compensation, his oldest memories are more vivid than ever. His mind keeps slipping backwards in time, retreating into long-ago yesterdays of growing up in Beaufort as a boy. At first this seems like a blessing of sorts, with the past providing a refuge from a shrinking future, but Joey grows increasingly anxious as his father's hallucinatory arguments with figures from his youth begin to hint at deadly secrets, scandals, and suspicions long buried and forgotten. Resurfacing from decades past are mysteries that still have the power to shatter lives—and change everything Joey thought he knew. Especially when a new murder brings the police to his

door... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Chameleon's Shadow Minette Walters 2011-05-13 A compelling look into damaged minds, *The Chameleon's Shadow* is a psychological thriller from crime queen Minette Walters. When Lieutenant Charles Acland is flown home from Iraq with serious head injuries, he faces not only permanent disfigurement but also an apparent change to his previously outgoing personality. Crippled by migraines, and suspicious of his psychiatrist, he begins to display sporadic bouts of aggression, particularly against women, especially his ex-fiancee who seems unable to accept that the relationship is over. After his injuries prevent his return to the army, he cuts all ties with his former life and moves to London. Alone and unmonitored, he sinks into a private world of guilt and paranoid distrust . . . until a customer annoys him in a Bermondsey pub and he attracts the attention of local police investigating three murders which appear to have been motivated by extreme rage . . . Under suspicion, Acland is forced to confront the real issues behind his isolation. How much control does he have over the dark side of his personality? Do his migraines contribute to his rages? Has he always been the duplicitous chameleon that his ex-fiancee claims? And why – if he hates women – does he look to a woman for help?

A Guide to the Reptiles of Southern Africa Graham Alexander 2013-03-13 Southern Africa is home to a remarkably diverse and rich reptile fauna, which is presented in this book in a lively and accessible way. *A Guide to the Reptiles of Southern Africa* introduces the 517 species currently described in the region and presents interesting insight on reptile identification and diversity, distribution patterns, and biology and behaviour. It also offers tips on finding and observing reptiles, as well as unravelling the facts and fallacies of snakebite. Southern African reptiles fall into three main groups (orders): snakes and lizards, crocodiles and shelled reptiles, and each group comprises in turn a number of related families and sub-groups, which form the basic structure of the book. The reptiles are discussed within their relevant groups according to appearance, biology, reproduction, distribution and conservation status. Informative panels with simple icons provide key information on distribution, typical habitat and period of activity, and a wealth of full-colour photographs brings the subject matter vividly to life.

Shadow and Act Ralph Ellison 2011-06-01 With the same intellectual incisiveness and supple, stylish prose he brought to his classic novel *Invisible Man*, Ralph Ellison examines his antecedents and in so doing illuminates the literature, music, and culture of both black and white America. His range is virtuosic, encompassing Mark Twain and Richard Wright, Mahalia Jackson and Charlie Parker, *The Birth of a Nation* and the Dante-esque landscape of Harlem. "the scene and symbol of the Negro's perpetual alienation in the land of his birth." Throughout, he gives us what amounts to an episodic autobiography that traces his formation as a writer as well as the genesis of *Invisible Man*. On every page, Ellison reveals his idiosyncratic and often contrarian brilliance, his insistence on refuting both black and white stereotypes of what an African American writer should say or be. The result is a book that continues to instruct, delight, and occasionally outrage readers thirty years after it was first published.

Shadows of Power Jean Hillier 2003-09-02 *Shadows of Power* examines public policy and in particular, the communicative processes of policy and decision-making. It explore the important who, how and why issues of policy decisions. Who really takes the decisions? How are they arrived at and why were such processes used? What relations of power may be revealed between the various participants? Using stories from planning practices, this book shows that local planning decisions, particularly those which involve consideration of issues of 'public space' cannot be understood separately from the socially constructed, subjective territorial identities, meanings and values of the local people and the planners concerned. Nor can it be fully represented as a linear planning process concentrating on traditional planning policy-making and decision-making ideas of survey analysis-plan or officer recommendation-council decision-implementation. Such notions assume that policy-and decision-making proceed in a relatively technocratic and value neutral, unidirectional, step-wise process towards a finite end point. In this book Jean Hillier explores ways in which different values and mind-sets may affect planning outcomes and relate to systemic power structures. By unpacking these and bring them together as influences on participants' communication, she reveals influences at work in decision-making processes that were previously invisible. If planning theory is to be of real use to practitioners, it needs to address practice as it is actually encountered in the worlds of planning officers and elected representatives. Hillier shed light on the shadows so that practitioners may be better able to understand the circumstances in which they find themselves and act more effectively in what is in reality a messy, highly politicised decision-making process.

A Fine Gray Rain: In the Shadow of Mount Pinatubo Robert Reynolds 2016-12-26 In 1991, Mount Pinatubo awoke after 500-yrs dormancy. Nearby, America's Clark Air Base evacuated military personnel and dependents to Subic Bay Navy Base. One thousand Air Force and civilians remained to safeguard Clark AB. A series of violent volcanic eruptions hurled ash, rock and gas into the sky. At the same time Typhoon Yunya blew in off the Pacific and earthquakes repeatedly rattled the

Philippines countryside. As the rain-laden ash fell back to earth, aircraft hangars, warehouses, homes and buildings crashed to the ground as muddy ash covered the terrain. When the eruptions let up, military officials began evacuating tens of thousands from the country while those deemed mission-essential began salvage operations. This is a true account of this historic event from the perspective of a small group of civilians who were present throughout.
