Dancing with the Dinosaur William Lareau 1994 The purpose of this book is to present you with a new perspective about work and business -- new behaviors, new expectations, new theories. In order to do this, it is necessary to disrupt and challenge the strongly ingrained but outmoded and ridiculous assumptions that you've been taught about business by well-meaning parents, teachers, and by society. An important element of this book's strategy for challenging the old and teaching the new is to create and place you in a make-believe business jungle, replete with dinosaurs. This jungle and its dinosaurs are metaphors for the normal business world and the people who work in it. In order to strengthen the impact, all the dinosaurs are given special names. At first these names will seem strange and difficult to pronounce. Very quickly though, the names will become familiar and even endearing as you begin to internalize the concepts.

In Green's Jungles Gene Wolfe 2007-04-01 Gene Wolfe's In Green's Jungles is the second volume, after On Blue's Waters, of his ambitious SF trilogy, The Book of the Short Sun. It is again narrated by Horn, who has embarked on a quest from his home on the planet Blue in search of the heroic leader Patera Silk. Now Horn's identity has become ambiguous, a complex question embedded in the story, whose telling is itself complex, shifting from place to place, present to past. Horn recalls visiting the Whorl, the enormous spacecraft in orbit that brought the settlers from Urth, and going thence to the planet Green, home of the blood-drinking alien inhum. There, he led a band of mercenary soldiers, answered to the name of Rajan, and later became the ruler of a city state. He has also encountered the mysterious aliens, the Neighbors, who once inhabited both Blue and Green. He remembers a visit to Nessus, on Urth. At some point, he died. His personality now seemingly inhabits a different body, so that even his sons do not recognize him. And people mistake him for Silk, to whom he now bears a remarkable resemblance. In Green's Jungles is Wolfe's major new fiction, The Book of the Short Sun, building toward a strange and seductive climax. "Wolfe's narrative glows, rich and seductive as ever."--Kirkus Reviews At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

From the Jungles to the Cathedrals Juan Carlos Ortiz 2011-08-09 Dr. Juan Carlos Ortiz narrates the story of how he went from the jungles to the cathedrals. Through the pages of this book, he leads the reader on his journey from his humble beginnings with an alcoholic father, to when Jesus, in the form of two missionaries, transformed his life. In spite of his mother's resistance to waste any time on "nonsense", their persistence to share the good news of the gospel paid off. They spoke the words her broken heart longed to hear. Jesus became their provider, their comforter, their joy. Although his mother couldn't meet all their needs through her work, supernaturally they always had enough. The impossibility of him and his siblings to attend school was suddenly a possibility. As a young man, Dr. Ortiz feels the need to serve the One who changed their lives. He enters into the seminary beginning his journey into the ministry. Along the way he is influenced by great international leaders like Tommy Hicks, who leave a lasting impression on his life. Soon after, he becomes pastor of the Crystal Cathedral in California, one of the most important churches in the United States.

Cops, Jungles, and Santa Claus Larry D. Flora 2008-04 Deep within the Langerhorne Mountains on the continually dark side of planet Xirca, a cave-dwelling civilization carries on their daily routines. They are unaware that life beyond the cave entrance exists and are forced to serve a ruler who keeps them there for his own purposes. When a fifteen-year old boy is framed for the murder of his best friend, he is forced to leave the safety of his cave-home to venture into the uninhabitable snow-covered mountains. Armed with a sword, a hunter's specialized gliding cloak, knee-slides, and the ability to glide through the air, Brody takes on the unknown. Eventually, he is led by a pair of strangers to a nearby community where he contemplates his situation. When he is ready to rally troops and return to the mountain to set things right with the evil dictator that he once served, events don't exactly unfold as expected. While developing and executing his plan, he is involved with a professional sport competition, the flying mountain cats of the king's army, a motorized six-wheeled sandscooter, and a colorful character who may hold the answer to his problem. On a planet where creatures and cultures are different than ours, love and loss, loyalty and betrayal, are still powerful motivators.

The Malayan Emergency & Indonesian Confrontation Robert Jackson 2011-05-18 The struggle with Communist terrorists in Malaya known as The Emergency became a textbook example of how to fight a guerrilla war, based on political as much as military means. This book deals with both the campaign fought by British, Commonwealth and other security forces in Malaya against Communist insurgents, between 1948 and 1960, and also the security action in North Borneo during the period of Confrontation with Indonesia from 1962 to 1966. Both campaigns provided invaluable experience in the development of anti-guerrilla tactics, and are relevant to the conduct of similar actions which have been

fought against insurgent elements since then. The book written with the full co-operation of various departments of the UK Ministry of Defence contains material that until recently remained classified. This is the first full study to cover the role of airpower in these conflicts. It will be of relevance to students at military colleges, and those studying military history, as well as having a more general appeal, particularly to those servicemen and women who were involved in both campaigns.

British Books in Print 1971

Born in the Jungles of Burma Andrew Wax 2010-08-11 This researcher examined the evolution of warfare in an unforgiving environment, necessitating an innovative method of warfare never attempted on a large scale. It details the early history of air supply and support near the end of WWI up to and including the war in Europe in 1939 and the expanding war in Asia following the December 1941 Japanese attack on Pearl Harbor and subsequent offensives in southeast Asia. The China-Burma-India Theater (CBI) became an important component of Allied efforts. Low in Allied priority, the difficulties encountered by the Southeast Asia Command (SEAC) increased. Burma, a British colony, was a region with few all-weather roads; the only rail lines available were in enemy hands 150 miles inside Japanese lines. Temperatures reached 110 degrees Fahrenheit with rainfall as much as 200 inches per year. Additionally, the nearest friendly seaport was more than 500 miles away. The Allied offensive, scheduled for the spring of 1944, incorporated a multi-pronged ground attack on three different Japanese fronts. To achieve success, it was essential to develop the only logical means of sustainability for ground forces: Air Supply and Support.

Described herein are the efforts of the United States Army Air Forces (USAAF) and the Royal Air Force (RAF), creating a singularly unique air unit: Air Commando 1. The coordination of Allied tactics and doctrines were worked out with a clear delineation of the chain of command. When Air Commando 1 arrived in India, the framework that became the Allied offensive, codenamed "Operation THURSDAY" was laid. For the survival of soldiers contracting one of the numerous diseases (Burma has the largest number of snakes per square mile) or suffering from combat related wounds and injuries, it was essential to receive quick medical attention. It was in the CBI that SEAC established an effective method of air evacuation that made the difference between life and death. The research unearthed most of the heretofore publicly unknown aspects of the campaign, explored in the author's thesis, which indicate that the first sustained effort of air supply and support deep within enemy-held territory established a vital method of warfare deployed in subsequent wars.

The Jungle Books Rudyard Kipling 2014-09-08 Rudyard Kipling was born in India in 1865 and spent his early years reveling in the country's exotic delights. At five he was sent to school in England, and did not return until 1882, when he worked as a reporter on the 'Civil and Military Gazette'. A prolific writer, he soon became famous for a prodigious range of tales and poems, from the high adventure of 'The Man Who Would Be King', through the gritty doggerel of 'Barrack Room Ballads' to charming children's story such as 'Puck of Pook's Hill' and, perhaps his most celebrated offering, 'The Jungle Book'. Although it includes such famous tales as 'Rikki-Tikki-Tavi' 'The Jungle Book's true hero is Mowgli, a young boy raised with wolves, and hunted by the evil tiger Shere Khan. All is well until the realization dawns in Mowgli that he is human - knowledge he tries to repress as he is appalled by humankind's greed and destructiveness. Through a series of perils and adventures, Mowgli gradually comes to terms with the animal and human facets of his life. Like all good children's stories, these tales have a depth of allegory and symbolism that allows them to be enjoyed by adults as well as children. 'The Jungle Book' is a work that can be read throughout a lifetime - one that will bring pleasure and further insights at each reading.

Modern Jungles Pao Lor 2021-02-17 As a five-year-old boy, Pao Lor joined thousands of Hmong who fled for their lives through the jungles of Laos in the aftermath of war. After a difficult and perilous journey that neither of his parents survived, he reached the safety of Thailand, but the young refugee boy's challenges were only just beginning. Born in a small farming village, Pao was destined to be a Hmong clan leader, wedding negotiator, or shaman. But the course of his life changed dramatically in the 1970s, when the Hmong faced persecution for their role in helping US forces fighting communism in the region. After more than two years in Thai refugee camps, Pao and his surviving family members boarded the belly of an "iron eagle" bound for the United States, where he pictured a new life of comfort and happiness. Instead, Pao found himself navigating a frightening and unfamiliar world, adjusting to a string of new schools and living situations while struggling to fulfill the hopes his parents had once held for his future. Now in Modern Jungles, Pao Lor shares his inspiring coming-of-age tale about perseverance, grit, and hope. Included are discussion questions for use by book clubs, in classrooms, or around the dinner table.

Organizing Age Stephen Fineman 2011-05-05 Age is the silent shaper of work organizations and their human resource practices. It has become a potent feature of how society is structured and how it views itself. Age assumptions mould the behaviours of young and old alike, and are used as political tools by policy makers and managers. Organizing Age asks the perennial question - can age ever not matter? Drawing on range of social scientific and popular writings, this book casts a critical eye over the social construction and politicization of age in and beyond organizations. Amongst other topics, it discusses: the historical roots of age in society; how we 'perform' our age in different settings; the social impact of defining age groups as generations; ageism; the effect of an age-cluster on an organization's processes and members' experience; the rituals of retirement and the birth of the retirement industry; the impact of economic recession in challenging some of our assumptions about age; and the increasing politicization of the growing 'grey' population. Organizing Age provides an accessible introduction to the current and emerging themes around this topic, which will be an invaluable resource for students, academics, and policy makers.

The Jungles of Arkansas Bob Lancaster 1989-07 When H. L. Mencken wrote about "the miasmatic jungles of Arkansas," he was referring to the relative obscurity and uncertain image that Arkansas has enjoyed—or suffered from—throughout its history. In these entertaining and sometimes quirky essays, Lancaster sheds light on that image by analyzing the stereotypes that have characterized the state since its very beginning.

The Malayan Emergency, 1948-60 Donald Mackay 1997 The Malayan Emergency starts with an overview of the state of Malaya in 1948 and reviews the troubles and problems during and after the Second World War that had made the country such a ripe target for insurrection.

Concrete Jungles Rivke Jaffe 2016-04-26 In the popular imagination, the Caribbean islands represent tropical paradise. This image, which draws millions of tourists to the region annually, underlies the efforts of many environmentalists to protect Caribbean coral reefs, mangroves, and rainforests. However, a dark side to Caribbean environmentalism lies beyond the tourist's view in urban areas where the islands' poorer citizens suffer from exposure to garbage, untreated sewage, and air pollution. Concrete Jungles explores the reasons why these issues tend to be ignored, demonstrating how mainstream environmentalism reflects and reproduces class and race inequalities. Based on over a decade of research in Kingston, Jamaica and Willemstad, Curaçao, Rivke Jaffe contrasts the environmentalism of largely middle-class professionals with the environmentalism of inner-city residents. The book combines a sophisticated discussion of the politics of difference with rich ethnographic detail, including vivid depictions of Caribbean ghettos and elite enclaves. Jaffe also extends her analysis beyond ethnographic research, seeking to understand the role of colonial history in shaping the current trends in pollution and urban space. A

thorough analysis of the hidden inequalities of mainstream environmentalism, Concrete Jungles provides a political ecology of urban pollution with significant implications for the future of environmentalism.
