A Little History of Philosophy Nigel Warburton 2011-10-25 Philosophy begins with questions about the nature of reality and how we should live. These were the concerns of Socrates, who spent his days in the ancient Athenian marketplace asking awkward questions, disconcerting the people he met by showing them how little they genuinely understood. This engaging book introduces the great thinkers in Western philosophy and explores their most compelling ideas about the world and how best to live in it. In forty brief chapters, Nigel Warburton guides us on a chronological tour of the major ideas in the history of philosophy. He provides interesting and often quirky stories of the lives and deaths of thought-provoking philosophers from Socrates, who chose to die by hemlock poisoning rather than live on without the freedom to think for himself, to Peter Singer, who asks the disquieting philosophical and ethical questions that haunt our own times. Warburton not only makes philosophy accessible, he offers inspiration to think, argue, reason, and ask in the tradition of Socrates. A Little History of Philosophy presents the grand sweep of humanity's search for philosophical understanding and invites all to join in the discussion.

Mindset Carol Dweck 2012-02-02 World-renowned Stanford University psychologist Carol Dweck, in decades of research on achievement and success, has discovered a truly groundbreaking idea-the power of our mindset. Dweck explains why it's not just our abilities and talent that bring us success-but whether

we approach them with a fixed or growth mindset. She makes clear why praising intelligence and ability doesn't foster self-esteem and lead to accomplishment, but may actually jeopardize success. With the right mindset, we can motivate our kids and help them to raise their grades, as well as reach our own goals-personal and professional. Dweck reveals what all great parents, teachers, CEOs, and athletes already know: how a simple idea about the brain can create a love of learning and a resilience that is the basis of great accomplishment in every area.

The Diana Chronicles Tina Brown 2007-06-12 #1 NEW YORK TIMES BESTSELLER • Years after her death, Princess Diana remains a mystery. This "insanely readable and improbably profound" biography (Chicago Tribune) reveals the truth as only famed journalist Tina Brown could tell it. "The best book on Diana." —The New Yorker Was she "the people's princess," who electrified the world with her beauty and humanitarian missions? Or was she manipulative and media-savvy and nearly brought down the monarchy? Tina Brown, former Editor-in-Chief of Tatler, England's glossiest gossip magazine; Vanity Fair; and The New Yorker gives us the answers. Tina knew Diana personally and has far-reaching insight into the royals and the Queen herself. In *The Diana Chronicles*, you will meet a formidable female cast and understand as never before the society that shaped them: Diana's sexually charged mother, her scheming grandmother, the stepmother she hated but finally came to terms with, and bad-girl Fergie, her sister-in-law, who concealed wounds of her own. Most formidable of them all was her mother-in-law, the Queen, whose admiration Diana sought till the day she died. Add Camilla Parker-Bowles, the ultimate "other woman" into this combustible mix, and it's no wonder that Diana broke out of her royal cage into celebrity culture, where she found her own power and used it to devastating effect.

90 Seconds to a Life You Love Joan I. Rosenberg 2019-02-12 Learn how to manage your most difficult feelings and build the emotional strength you need to create the life of your dreams. Sadness, shame, helplessness, anger, embarrassment, disappointment, frustration, and vulnerability. In 30 years as a practicing psychologist, Dr. Joan Rosenberg has found that what most often blocks people from success and feeling capable in life is the inability to experience, move through, and handle these 8 unpleasant feelings. Knowing how to deal with intense, overwhelming, or uncomfortable feelings is essential to building confidence, emotional strength, and resilience. Yet when we distract or disconnect from these feelings, we move away from confidence, health, and our desired pursuits, ultimately undermining our ability to fully realize our ambitions. Neuroscientists suggest that the biological lifespan of a feeling, often known first through bodily sensations, lasts approximately 90 seconds. Dr. Rosenberg teaches readers to be aware, consciously lean into, and balance these unpleasant emotions by riding one or more 90-second waves of the bodily sensations. By staying present to these 8 feelings, we cultivate the confidence that we can handle life's challenges and the deep sense we can pursue whatever we want. Combining more than three decades of clinical experience with aspects of clinical psychology, mindfulness, and neuroscience research, *90 Seconds to a Life You Love* is a strategic and practical guide on building core emotional strength, reducing anxiety, and developing the confidence you need to create a life of your design -- a life you love.

Everyone You Hate is Going to Die Daniel Sloss 2021-10-12 This is the Pandora's Box of self-help books. - Conan O'Brien Daniel Sloss's stand-up comedy engages, enrages, offends, unsettles, educates, comforts, and gets audiences roaring with laughter - all at the same time. In his groundbreaking specials, seen on Netflix and HBO, he has brilliantly tackled everything from male toxicity and friendship to love, romance and marriage - and claims (with the data to back it up) that his on-stage laser-like dissection of relationships has single-handedly caused more than 300 divorces and 120,000 breakups. Now, in his first book, he picks up where his specials left off, and goes after every conceivable kind of relationship - with one's country (Sloss's is Scotland); with America; with lovers, ex-lovers, ex-lovers who you hate, ex-lovers who hate you; with parents; with best friends (male and female), not-best friends; with children; with siblings; and even with the global pandemic and our own mortality. In *Everyone You Hate Is Going to Die*, every human connection gets the brutally funny (and unflinchingly incisive) Sloss treatment as he illuminates the ways in which all of our relationships are fragile and ridiculous and awful - but also valuable and meaningful and important.

The Influence of Sea Power Upon History, 1660-1783 Alfred Thayer Mahan 1918 Today, war is more complicated than it has ever been. When considering military strategy, a commander must be aware of several theaters of war. There's ground strength, air power, naval combat and even cyber warfare. In the late 19th century, however, the true military might of a nation rested primarily on the strength of its navy. In 1890, United States Navy Captain Alfred Thayer Mahan published a book titled "The Influence of Sea Power Upon History." The monumental text addressed the importance of both military and commercial fleets in the success of a nation in war and peacetime. Mahan begins with a discussion of the elements he considers to be the key to a nation's success on the seas. He theorizes that a ground force could not sustain the pressure of a naval blockade. Mahan then applies his principles to wars of the past. He analyzes the use of a navy in various engagements and considers the resulting influence on the outcome of the wars. The book was readily accepted by commanders and tacticians all over the world and his principles and theories were utilized throughout the 20th century. His arguments, along with technological advances, were influential in the strengthening of the United States Navy. Presently, Mahan's work is considered the most important work on naval strategy in history.
