Undressing CinemaStella Bruzzi 2012-10-12 From Audrey Hepburn in Givenchy, to sharp-suited gangsters in Tarantino movies, clothing is central to film. In Undressing Cinema, Stella Bruzzi explores how far from being mere accessories, clothes are key elements in the construction of cinematic identities, and she proposes new and dynamic links between cinema, fashion and costume history, gender, queer theory and psychoanalysis. Bruzzi uses case studies drawn from contemporary popular cinema to reassess established ideas about costume and fashion in cinema, and to challenge conventional interpretations of how masculinity and femininity are constructed through clothing. Her wide-ranging study encompasses: * haute couture in film and the rise of the movie fashion designer, from Givenchy to Gaultier * the eroticism of period costume in films such as The Piano and The Age of Innocence * clothing the modern femme fatale in Single White Female, Disclosure and The Last Seduction * generic male chic in Goodfellas, Reservoir Dogs, and Leon * pride, costume and masculinity in 'Blaxploitation' films, Boyz n The Hood and New Jack City * drag and gender confusion in cinema, from the unerotic cross-dressing of Mrs Doubtfire to the eroticised ambiguity of Orlando.

Dreams Of A Final TheorySteven Weinberg 2010-08-31 An understanding of nature's final laws may be within our grasp - a way of explaining forces and symmetries and articles that does not require further explanation. 'This starting point, to which all explanations can be traced, is what I mean by a final theory', says Steven Weinberg in this extraordinary book. In it he discusses beauty, the weakness of philosophy, the best ideas in physics and the honour of accepting a world without god.

As a Man Grows OlderItalo Svevo 2016-01-27 Not so long ago Emilio Brentani was a promising young author. Now he is an insurance agent on the fast track to forty. He gains a new lease on life, though, when he falls for the young and gorgeous Angiolina—except that his angel just happens to be an unapologetic cheat. But what begins as a comedy of infatuated misunderstanding ends in tragedy, as Emilio's jealous persistence in his folly—against his friends' and devoted sister's advice, and even his own best knowledge—leads to the loss of the one person who, too late, he realizes he truly loves. Marked by deep humanity and earthy humor, by psychological insight and an elegant simplicity of style, As a Man Grows Older (Senilità, in Italian; the English title was the suggestion of Svevo's great friend and admirer, James Joyce) is a brilliant study of hopeless love and hapless indecision. It is a masterpiece of Italian literature, here beautifully rendered into English in Beryl Zoete's classic translation.-Print ed. "The poem of our complex modern madness."—EUGENIO MONTALE "Svevo has the capacity—so rare as to be almost unknown in the English novel—of handling emotional relationships with a combined tenderness, humour and realism."—THE TIMES LITERARY SUPPLEMENT

The Empathic ScreenVittorio Gallese 2019-10-02 Why do people go to the movies? What does it mean to watch a movie? To what extent is the perceived fictional nature of movies different from our daily perception of the real world? We live in a time where the power of images strongly invaded our everyday life, and we need new instruments and methods to better understand our relationship with the virtual worlds we inhabit every day. Taking cinema as the beginning of our relationship with the world of moving images, and cognitive neuroscience as a paradigm to understand how the images engage us, The Empathic Screen develops a new theory of film experience, exploring our brain-body interaction when engaging with and watching a film. In this book, film theory and neuroscience meet to shed new light on cinema masterpieces, such as The Shining, The Silence of the Lambs, and Toy Story, and explore the great directors from the classical period to the present. Taking a radical new approach to understanding the cinema, the book will be fascinating reading for cognitive scientists, neuroscientists, psychologists, philosophers, and film and media scholars.

Rethinking Water ManagementCaroline Figueres 2012-05-23 If water resources are to be distributed efficiently, equitably and cost-effectively in this rapidly changing world, then it is clear that current water management practices are no longer feasible. Innovative approaches are required to meet the increasing water demands of a growing world population and economy and the needs of the ecosystems supporting them. New approaches have to be employed at global, national and local levels. In Rethinking Water Management, a new generation of water experts from around the world examine the critical challenges confronting the water profession, including rainwater and groundwater management, recycling and reuse, water rights, transboundary access to water and financing of water. They offer important new perspectives on the use, management and conservation of fresh water, in terms of both quantity and quality, for the domestic, agricultural and industrial sectors, and show how a new set of paradigms can be applied to successfully manage water for the future. Caroline Figueres is Head of the Urban Infrastructure Department at UNESCO-IHE Water Education Institute in The Netherlands. Cecilia Tortajada is Vice President of the Third World Centre for Water Management in Mexico and Vice President-elect of the International Water Resources Association. Johan Rockström is Water Resources Expert at UNESCO-IHE.

A Life Italo Svevo 2012-08-31 Alfonso, a youthful and poetic bank clerk, has until now been able to maintain his artistic and intellectual sensibilities, undaunted either by the stifling conditions of his employment, or by his increasingly entangled domestic circumstances. However

everything changes when he finds himself falling in love with his employer's conceited daughter, Annetta. When Annetta miraculously begins to encourage Alfonso's advances, he realises the vanity of his infatuation - at the same time that the precarious balance of the life that he struggled to create for himself is fatally threatened.

Tutti i libretti d'opera Giuseppe Verdi 2012-10-30 A cura di Piero Mioli Introduzione di Gustavo Marchesi Edizioni integrali Fuorché la musica, tutto. Il pubblico del teatro di Verdi troverà in questo volume, a parte la musica, le note e la partitura (che sono logico appannaggio specialistico), tutti i testi dei libretti, integrali, e una ricca serie di rubriche volte a introdurre, a saggiare, a documentare, ad accompagnare l'ascolto, come la storia del libretto e dell'opera, gli intrecci, i giudizi di critici e di grandi scrittori, gli interpreti. Chiude e completa questo splendido volume un'appendice del curatore che comprende una storia del dramma e del melodramma, una bibliografia e una discografia verdiane. Giuseppe Verdi (1813-1901) prelevò il glorioso melodramma italiano dalle mani di Rossini per portarlo a incredibili vertici di grandezza artistica, culturale, morale, nazionale. Di umili origini, abitò soprattutto a Sant'Agata, non lontano da Roncole di Busseto dove era nato, e morì a Milano. Compose 28 opere teatrali, molte delle quali continuano a trionfare sui palcoscenici di tutto il mondo. L'Italia che scrive 1949

Ulysses and Us Declan Kiberd 2010-06-03 In *Ulysses and Us*, Declan Kiberd argues that James Joyce's *Ulysses* offers a humane vision of a more tolerant and decent life under the dreadful pressures of the modern world. As much a guide to contemporary life as it is virtuoso work of literary criticism, *Ulysses and Us* offers revolutionary insights to the scholar and the first-time reader alike. Leopold Bloom, the half-Jewish Irishman who is the hero of James Joyce's *Ulysses*, teaches the young Stephen Dedalus (modelled on Joyce himself) how he can grow and mature as an artist and an adult human being. Bloom has learned to live with contradictions, with anxiety and sexual jealousy, and with the rudeness and racism of the people he encounters in the city streets, and in his apparently banal way sees deeper than any of them. He embodies an intensely ordinary kind of wisdom, Kiberd argues, and in this way offers us a model for living well, in the tradition of the literature upon which Joyce drew in writing *Ulysses*, such as Homer, Dante and the Bible. 'Declan Kiberd's brilliantly informed and highly entertaining advocacy liberates Joyce's greatest book from the dungeon of unreadable masterpieces.' Joseph O'Connor

Unified Design of Steel Structures Louis F. Geschwindner 2011-12-20 Geschwindner's 2nd edition of *Unified Design of Steel Structures* provides an understanding that structural analysis and design are two integrated processes as well as the necessary skills and knowledge in investigating, designing, and detailing steel structures utilizing the latest design methods according to the AISC Code. The goal is to prepare readers to work in design offices as designers and in the field as inspectors. This new edition is compatible with the 2011 AISC code as well as marginal references to the AISC manual for design examples and illustrations, which was seen as a real advantage by the survey respondents. Furthermore, new sections have been added on: Direct Analysis, Torsional and flexural-torsional buckling of columns, Filled HSS columns, and Composite column interaction. More real-world examples are included in addition to new use of three-dimensional illustrations in the book and in the image gallery; an increased number of homework problems; and a media approach Solutions Manual, Image Gallery.

Oil, Water, and Climate Catherine Gautier 2008-04-07 Today's oil and gas are at record prices, whilst global energy demand is increasing from population and economic development pressures. Climate change, resulting in large part from the burning of fossil fuels, is exacerbating the impacts of the accelerated exploitation of our natural resources. Therefore, anxieties over energy, water, and climate security are at an all-time high. Global action is needed now in order to address this set of urgent challenges and to avoid putting the future of our civilization at risk. This book examines the powerful interconnections that link energy, water, climate and population, exploring viable options in addressing these issues collectively. Difficult political decisions and major reforms in resource governance, policies, market forces, and use are needed and this book provides excellent introductory material to begin to understand and to address these problems.

Christianity and Democracy Jacques Maritain 2012-01-01 Few political philosophers have laid such stress upon the organic and dynamic characters of human rights, rooted as they are in natural law, as did the great 20th century philosopher, Jacques Maritain. Few Christian scholars have placed such emphasis upon the influence of evangelical inspiration, or of the Gospel message, upon the temporal order as has Maritain. As this important work reveals, the philosophy of Jacques Maritain on natural law and human rights is complemented by and can only be properly understood in the light of his teaching on Christianity and democracy and their relationship. Maritain takes pains to point out that Christianity cannot be made subservient to any political form or regime, that democracy is linked to Christianity and not the other way around and that every just regime, such as the classic forms of monarchy, aristocracy and republic, is compatible with Christianity and in it a person is able to achieve some measure of fulfillment even in the temporal order. At the same time he argues his distinctive thesis that personalist or organic democracy provides a fuller measure of freedom and fulfillment and that it emerges or begins to take shape under the inspiration of the Gospel. Even the modern democracies we do in fact have, with all their weaknesses, represent an historic gain for the person and they spring, he urges, from the very Gospel they so wantonly repudiate!

Mr Charles Booth's Inquiry Rosemary O'Day 1993-07-01 Charles Booth's pioneering survey, *Life and Labour of the People in London*, published in 17 volumes between 1889 and 1903, was a landmark in empirical social investigation. His panorama of London life has

dominated all subsequent accounts: its scope, precision and detail make it an unrivalled source for the period. Mr. Charles Booth's Inquiry is the first systematic account of the making of the survey, based upon an intensive examination of the huge Booth archive. This contains far more material than was eventually published, in particular on women, work, religion, education, housing and social relations, as well as on poverty. While the book acknowledges the leading role of Booth himself, it highlights the significance of the contributions of his associates, including Beatrice Potter (Webb), Octavia Hill, Llewellyn Smith and G.H. Duckworth. Life and Labour of the People in London is a founding text of both social history and modern sociology. It has however commonly been misunderstood and frequently misused. Mr Charles Booth's Inquiry sets the survey in perspective and demonstrates the richness of the Booth archive and its potential for modern scholarship in both history and the social sciences.

The Day Giuseppe Parini 2010-04-01 One of the most studied and popular works of Italian literature, Giuseppe Parini's The Day has been unjustly neglected in the English-speaking countries. This edition reissues of Herbert Morris Bower's beautiful verse translation, the only complete English version of the poem, is enriched by facing original text and extra end notes. Parini's satirical description of a lazy young nobleman's fashionable day, from his awakening late in the morning to the fatuous pleasures that noon and evening bring, has been often compared to The Rape of the Lock, and displays the same gentle tone, pointed wit, and enduring charm of Pope's masterpiece.

Colour Rudolf Steiner 2013-04-03 Building on the achievements of Goethe in his Theory of Colour, Rudolf Steiner shows how colour affects us in many areas of life, including our health, our sense of well-being, and our feelings. Distinguishing between 'image' and 'lustre' colours, he lays the foundation, based on his spiritual-scientific research, for a practical technique of working with colour that leads to a new direction in artistic creativity. His many penetrating remarks on some of the great painters of the past are supplemented by a deep concern to see a cultural, spiritual renewal emerge in the present time. 'If you realize', he states, 'that art always has a relation to the spirit, you will understand that both in creating and appreciating it, art is something through which one enters the spiritual world.' This volume is the most comprehensive compilation of Rudolf Steiner's insights into the nature of colour, painting and artistic creation. It is an invaluable source of reference and study not only for artists and therapists but for anyone interested in gaining an appreciation of art as a revelation of spiritual realities.

The Other Side Alfred Kubin 2000 Alfred Kubin (1877-1959) was one of the major graphic artists of the 20th century who was widely known for his illustrations of writers of the fantastic such as Balzac, E. I. A. Hoffmann, Gustav Meyrink and Edgar Allan Poe. In his combination of the darkly decadent, the fantastic and the grotesque, in his evocations of dream and nightmare, his creation of an atmosphere of mystery and fear he resembles Mervyn Peake. The Other Side tells of a dream kingdom which becomes a nightmare, of a journey to Pearl, a mysterious city created deep in Asia, which is also a journey to the depths of the subconscious. Or as Kubin himself called it, 'a sort of Baedeker for those lands which are half known to us'.

Milongas Edgardo Cozarinsky 2021-12-14 With an introduction by award-winning author Alberto Manguel, Milongas is Edgardo Cozarinsky's love letter to tango, and the diverse array of people who give it life. From tango's origins in the gritty bars of Buenos Aires, to milongas tucked away in the crypt of a London Church, a café in Kraków, or the quays of the Seine, Cozarinsky guides us through a shape-shifting dance's phantasmagoric past. In neighborhood dance halls vibrant and alive through the early hours of the morning, where young and old, foreign and native, novice and master come together to traverse borders, demographics, and social mores, "it is impossible to distinguish the dance from the dancer." As conspiratorial as he is candid, Cozarinsky shares the secrets and culture of this timeless dance with us through glimmering anecdote, to celebrate its traditions, evolution, and the devotees who give it life.

Maigret and the Londoner Georges Simenon 2019-11-07 'The father of contemporary European detective fiction' Ann Cleeves 'People who've been here a long time have been talking about him. This morning, when I was having my coffee and croissants, it was all they were talking about. The old folks, even the middle-aged people, remember him and can't understand how he could have become a tramp. Apparently he was a good-looking man, tall and strong, who had a good profession and made a very decent living. And yet he vanished overnight without saying a word to anyone.' The death of a homeless man in a condemned building in Les Halles leads Maigret on the trail of the vagrant's mysterious past, and an event that happened years ago in the close-knit community of Montmartre. Law and Intersystemic Communication Assoc Prof Gorm Harste 2013-04-28 With contributions from experts in the field of sociology of law, this book provides an overview of current perspectives on socio-legal studies. It focuses particularly on the relationship between law and society described in recent social systems theory as 'structural coupling'. The first part of the book presents a reconstruction of theoretical tendencies in the field of socio-legal studies, characterised by the emergence of a transnational model of legal systems no longer connected to territorial borders and culturally specific aspects of single legal orders. In the following parts of the book, the contributions analyse some concrete cases of interrelation between law and society from an empirical and theoretical perspective.
